EDUCATION

DJ Sanghvi College of Engineering , Mumbai, India	2022 – 2026
B.Tech in Computer Engineering	GPA: 8.98
Pace Junior College , Dadar, Mumbai	2020 – 2022
H.S.C	HSC: 87.5%
MHCET	MHCET: 98.99%
St. Mary's High School , Mumbai, India	2010 – 2020
I.C.S.E	ICSE: 95.2%

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, SQL

Technologies/Frameworks: Django, React.js, PostgreSQL, REST APIs, Flask, LangChain

Libraries & Tools: Pandas, NumPy, PyTorch, TensorFlow, Git, GitHub, VS Code, Linux, Docker

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Object Oriented Programming

ACHEIVEMENTS

- Earned a peak contest rating of 7453 out of 27000+ in Biweekly Contest on Leetcode Platform.
- Earned ranking of 496 out of 2000 in CosmoComet organized by Birla Institute of Technology.

EXPERIENCE

Software Developer Intern – Atidan Technology	Nov 2025 – Jan 2026
• Worked on a customer churn prediction project using a Random Forest model for classification. • Preprocessed data set of 100+ customers checking for incorrect, missing and duplicate values. • Achieved a accuracy score of 0.78 using a confusion matrix for finetuning precision and recall.	

PROJECTS

SmartSpend - Financial Analysis Platform.	Next.js, Flask, Scikit-Learn, Ollama, PostgreSQL
• Preprocessed over 1000+ CT Slices using resizing, intensity normalization, format conversion. • Defined 7 parameters for the 3D Unet model imported from MONAI, for training the model. • Evaluated the performance of the model achieved a Dice Coefficient of 0.87 on the test data. • Improved identification of liver disease and hence proper treatment for the identified disease.	
InsightEngine – Knowledge Retrieval Assistant	Python, FastAPI, Gemini 1.5 Pro, ChromaDB
• Built FastAPI RAG backend, achieving sub-second retrieval latency for 100+ research papers. • Engineered Gemini 1.5 pro hybrid search, boosting retrieval accuracy by 30% for queries. • Deployed a “Writing Coach” Agent, reducing manual editing by 40% for technical documents. • Optimized ingestion pipeline using Semantic Chunking, successfully indexing 500k+ tokens.	
FinTrack - Personal Finance Management App	Python, Django, PostgreSQL
• Developed a personal finance web application to manage income, expenses, and transactions. • Designed PostgreSQL database for users, transactions, and categories using Django ORM. • Optimized database queries and pagination while testing with 100+ transaction records. • Streamlined organization and management of finances to ensure ease and efficiency for users.	

CERTIFICATIONS & TRAINING

• JPMorgan Chase & Co – Software Engineering Job Simulation	Forage Oct 2025
• Machine Learning Operations for Generative AI	Google Skills Nov 2025
• Introduction to Generative AI	Google Skills Nov 2025
• Digital Twins: Driving Cyber Security and Innovation Across Services	ISTE Jan 2026
